KW Publishers, New Delhi, India, 2014. Softcover. Book Condition: New. First Edition. Previous works discussing the enclaves shared between India and Bangladesh, or the enclaves of Central Asia, have centered primarily on their historical origins and on their inhabitants' living conditions. This monograph briefly reviews these works while making a comparison between the enclaves of the two regions. It then adds to the existing literature with an argument that international enclaves stymie the expressed and assumed development interests of both India and Kyrgyzstan. Finally, it considers potential explanations for the continued existence of enclaves in both South and Central Asia, despite the harm these geographical features surely cause for their 'owning' states and peoples. The work follows research conducted by the author as a Visiting Research Scholar at the Institute of Foreign Policy Studies at the University of Calcutta, and precedes a separate comprehensive study of public service delivery in the Kyrgyz exclave village Barak conducted by the author with the support of the United Nations Development Programme later in 2013. Printed Pages: 90.
